

List of Fees for *EGYCER* Certification Services ***“As of January 1st, 2026”***

1. PURPOSE

This document establishes the fees applicable to certification, inspection, evaluation, verification, certification maintenance, transaction certification, and related services provided by EGYCERT.

The fee structure is designed to ensure transparency, impartiality, consistency, and non-discriminatory access to certification services in accordance with ISO/IEC 17065 and applicable certification requirements and schemes.

2. GENERAL CONDITIONS

2.1 Certification fees are determined based on the scope of certification, type of operation, number of sites, products, employees, cultivated area, group members, risk classification, inspection duration, and sampling and laboratory analysis requirements.

2.2 Payment of fees does not guarantee certification approval.

2.3 Certification decisions are made independently and solely on the basis of conformity with applicable standards, regulations, and certification requirements.

2.4 Fees, charges, or payment status shall not influence inspections, evaluations, certification decisions, sanctions, suspension, withdrawal, or any other certification activities.

2.5 Certification services are provided on a non-discriminatory basis.

2.6 Where required by applicable regulations or certification schemes, additional inspections, witness audits, investigations, sampling, laboratory analyses, travel, accommodation, and special evaluations may be charged separately.

2.7 Application and evaluation fees are non-refundable once the certification process has commenced, regardless of the certification outcome.

2.8 EGYCERT reserves the right to revise certification fees. Updated fee schedules shall be communicated to clients before implementation.

2.9 Fees are applied consistently to all applicants and certified operators within the same certification category and scope. Any differences in fees shall be based solely on objective factors such as scope, size, complexity, risk classification, inspection duration, sampling requirements, travel requirements, and applicable certification scheme requirements.
